Re: Minutes of meeting on 2 February 2009 concerning review of the cystic fibrosis centres in Aarhus and Copenhagen, Denmark

Thank you for the Minutes of the meeting of 2nd February 2009 about the external review of the cystic fibrosis centres in Aarhus and Copenhagen.

We would like to emphasize that we attended the meeting as observers since we were not involved in the decision of establishing an external review of the two centres. As observers to this process, the Danish CF Association cannot be perceived as committed to the results of the review.

We would further like to emphasize that the Danish CF Association has decided to appoint an independent professional statistical analysis of patient data.
